Solan (H.P.)

Vardhman group of companies is a major textile producer in India and engages in manufacturing of yarns, woven fabric, acrylic fibre, garments etc. On 3/17/2019, Shoolini University organised an industrial visit for 35 students from B.Com (H) to Vardhman Textiles, Baddi. The transport facility was provided by the University. Some students were given responsibilities of arranging the breakfast and other refreshments and to ensure that each student boards bus on time. The students were accompanied by two faculty members to ensure that every student gains maximum knowledge out of the industrial visit.

At Vardhman, the students were divided into two groups and each group was accompanied by one faculty member and two employees from the company. The students picked up brief insights about the company through tours to various departments, where respective heads explained the various processes involved. The students were also taken to the textile designing area where the staff explained how designs are created graphically. Later, every student learnt about how designs are transferred through rollers and silk screens to the fabric. They understood many new concepts like job order costing and production on specific order basis, according to the specifications given by the customer.

After practically seeing the processes, the students had an interactive session with the manager and the head. They cleared all the doubts of the students and provided them with more information regarding the working of the company.

The students spent an enjoyable day and benefitted greatly as they learnt about the various procedures and got an insight regarding the working of the company.
