## Bicycle ride

World Bicycle Day draws attention to the benefits of using the bicycle - a simple, affordable, clean, and environmentally fit sustainable means of transportation. On 3<sup>rd</sup> of June 2022 on World Bicycle Day a 30kms ride starting from Solan to Shoolini University via Solan Kumarhatti road was organised. The ride started with flag off by Mr. Vishal Anand at SILB Institute, Solan. The ride was organized to encourage public to use bicycle more often and whenever possible to meet environment sustainable development goals. The participants were appreciated and given certificates by Vice Chancellor Atul Khosla.
