Induction for Postgraduate Students- Day 1

The two-day induction programme for new postgraduate students was organised at APJ Hall, Shoolini University on September 22, 2022. The event started with a warm welcome from DSW Mrs. Poonam Nanda who laid out the context and spoke to the students about their new journey at Shoolini University. The other sessions were around academics, examination, eUniv etc where the students were familiarized with all the processes at the campus which would help them in settling down. A comprehensive session led by students around voluntary work and clubs was also given by current students. A general feel of excitement on this new journey was visible in the new students.

Total number of students participated: - 220
