

**August 01, 2022****Cancer Awareness on World Lung Cancer Day**

On World Lung Cancer Day an online session was moderated by DSW Mrs. Poonam Nanda. The expert on the talk was Dr. Ullas Batra who is an eminent oncologist at Rajiv Gandhi Cancer Institute & Research Centre.

Dr. Ullas Batra spoke about the perils of smoking and said that passive smokers are also in danger of Getting this disease. Also, on the show was Mr. Sudipto who is battling lung cancer despite being a non-smoker. He spoke about how life changes once you are diagnosed with the disease. He strongly recommended a positive bent of mind in any kind of adversity including cancer. Both Mrs. Nanda and Mr. Sudipto shared the experiences of their journey during the treatment and spoke of the importance of family and social support. Dr. Ullas Batra strongly advised smokers to give up smoking and said that healthy lifestyles must be followed to ensure one stayed away from hospital visits.

**Number of students participated: - 76**
