

March 16, 2022**Holi celebrations at Manav Mandir**

On March 16, 2022, the young fighters of the Muscular Dystrophy Association and the students of Shoolini University came together at Manav Mandir to participate in a Holi celebration that was exceedingly entertaining. A group of thirty students went to Manav Mandir voluntarily to spend the better part of their evening putting smiles and cheers on the faces of young children who suffer from muscular dystrophy. There were many different activities planned, such as dance, singing, and poetry recitation, and they were all actively participated in by them. The students also created a rangoli in the IAM:D campus as a gift for the stunning soldiers and those who watch over them. The primary purpose of the event was to bring joy to both the youngsters and their parents. The students were quite engaged in the activities that were going on.

No. of students participated – 30**Two of the volunteers presenting a dance performance**

Volunteer Kavita playing Holi

Volunteers dancing with guardians of Muscular dystrophy warriors

Volunteers dancing after playing Holi

The activity being ended with a meditation session
