## Talk on International Childhood Cancer Day

Shoolini university on occasion of International Childhood Cancer Day organised a talk with Mr. Jayant Kandoi who has battled cancer 6 times. Jayant Kandoi who is 23 years old and hails from Ajmer, Rajasthan has defeated cancer 6 times. He was first detected when he was 15 years of age. Every time Jayant won the battle against this formidable disease, he even attained top ranks throughout his academic career. Currently, he runs a start-up and an NGO regarding spreading awareness of cancer. In his interactive session, Jayant mentioned how it is important to remain positive even while fighting the deadliest of the disease. He explained how the fear of cancer has been fed to us and this causes so much trauma to the patients and families. He narrated his journey of ups and downs – from being financially weak to being a motivational speaker now, he feels cancer along with pain has given him fame too. He focused on how being satisfied is necessary for the younger generation.

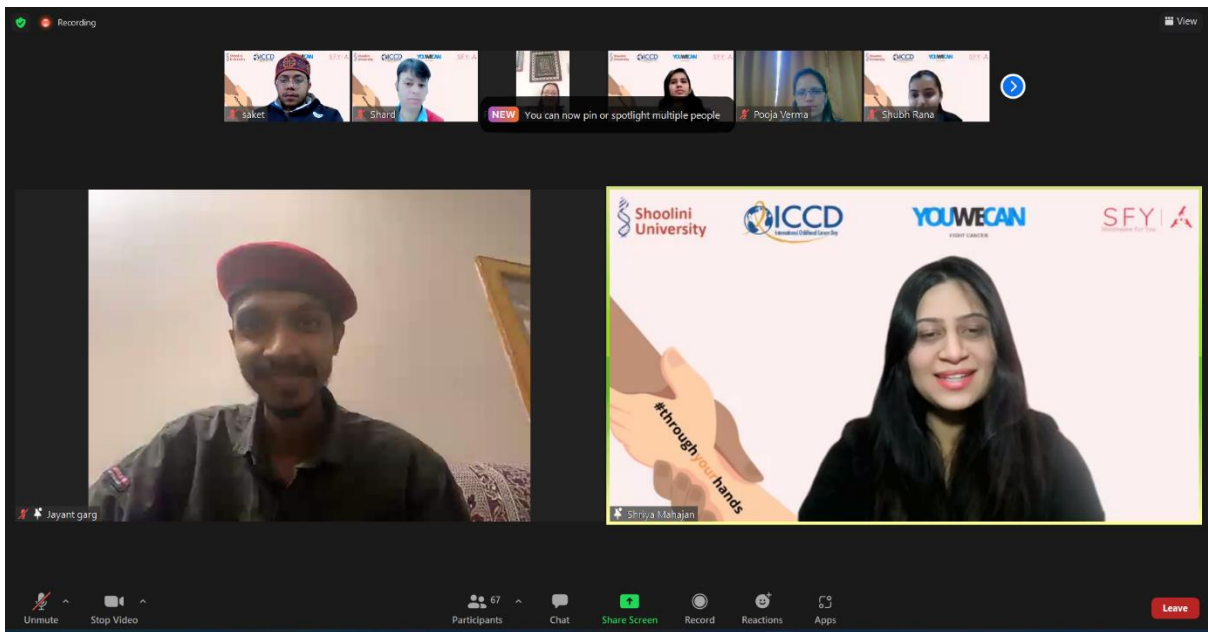

**Number of students participated: - 148**

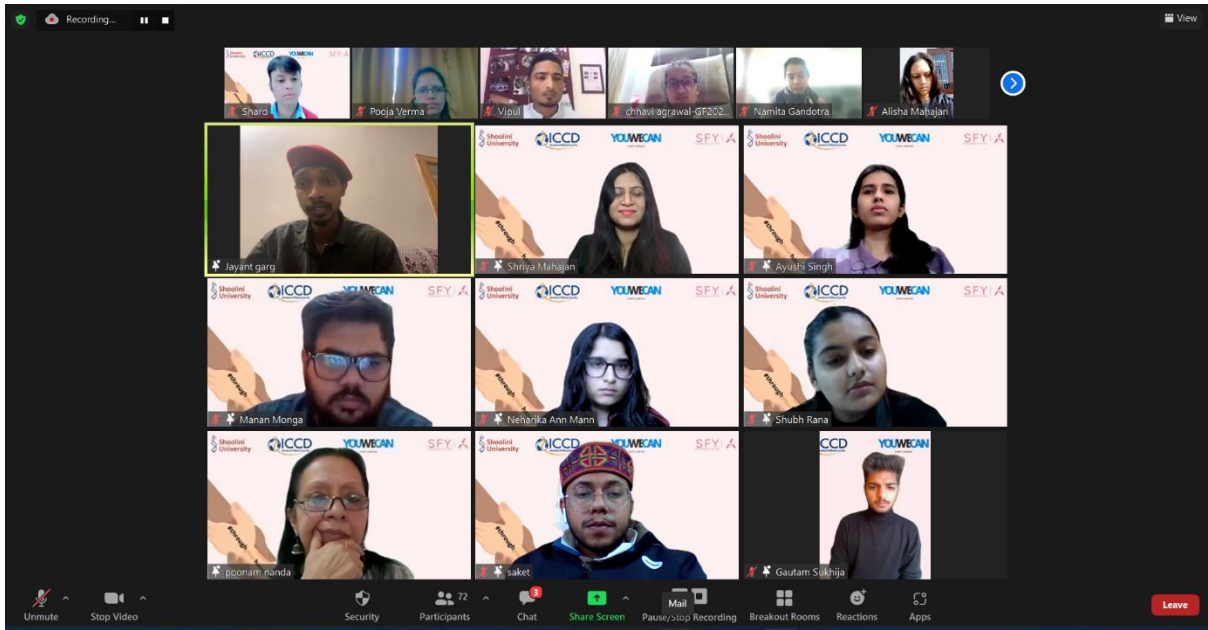

**A welcome poster made for the talk being shared on the screen**
