World Heart Day Medical Camp Awareness

On September 30, 2019, a medical camp and an awareness session on “Heart Health” was conducted. In this session, Dr. Deepak Puri (Ex- Director Cardiac Max Hospital) made students and teachers of Shoolini University aware about the potential heart diseases and their prevention. Also, a talk on healthy hearts were organized in which many people from within the Shoolini University shared the heart whelming stories of their lives. Following this, a medical check-up was done for the heart health of the students, faculty members and staff members of the Shoolini University. A total of 110 students went through their medical check-up during this medical camp.

Total participants: - 110

Number of students participated: - 110
