

**July 1&7, 2018**

### **Aao Ped Lagaye- Earth Just**

Trees contribute to their environment over long periods of time by providing oxygen, improving air quality, climate amelioration, conserving water, preserving soil, and supporting wildlife. In July 2018, Shoolini University students and Earth Just volunteers volunteered for tree plantation on Solan-Oachghat-Kumarhatti Highway. This tree plantation drive was called “Aao Ped Lagaye” This drive was conducted on July 01 and July 07, under which 2000 plants were conducted. This volunteering from Shoolini University students was highly appreciated by the members of EarthJust and founder of EarthJust Mr. Abhishek Taneja.

**Number of students participated: - 102**

Intuition Empathy Harmony Foresight Consciousness

**Thank You Note**  
**for Collaborating with us on "Aao Ped Lagaye"**

Will like to thank **Shoolini University, Solan-Oachghat-Kumarhatti Highway, Bajhol, Himachal Pradesh 173229** for collaborating with us on the tree plantation drive "Aao Ped Lagaye" on the 1<sup>st</sup> July & 7<sup>th</sup> July of 2018.

Sharing some snippets of the wonderful collaboration and your continuous support will help us sustain them.

Earthjust is an organisation promoting sustainable living practices. We co-think and collaborate with individuals, households, institutions and communities in making them more sustainable in their practices. We hope to create a swacch, sundar, swasth, saksham, samriddh, sanyukt, satat - samaj.

We keep updating our activities on our facebook page ([facebook/earthjust](https://www.facebook.com/earthjust)). Do like / follow us so that you know where and how your collaboration is helping us promote sustainable living practices.

**For Earthjust Ecosystems Foundation**
