Awareness program on HIV AIDS

World AIDS Day is celebrated all over the world on December 01. Every year Shoolini University takes part in different kinds of activities to raise awareness about AIDS. This year Shoolini partnered with Helpage India, and awareness marches were organized in which a large number of volunteers from Shoolini University participated. Along with this the representative of Helpage India visited the Shoolini University campus and they spoke to students about AIDS. The special talk for housekeeping staff ladies of Shoolini was also organized where the discussion on female health and hygiene was discussed with them and a normal basic medical checkup of the ladies was also carried out.

Number of students participated: - 50

Medical health Check-up being run at Sports Complex Shoolini University

Appreciation letter received from HelpAge India
